

At Southwest Veterinary Medical Center our team of professionals always strive to provide the best medical care possible to every patient.

In every aspect of our hospital we work to create an atmosphere of trust for our clients and our staff.

Hours of Operation:

Monday - Friday 8:00 am to 5:30 pm

Saturday - 9:00 - 1:00 pm Closed on Sundays

We schedule appointments for our patients to ensure that we have time to spend with just you and your pet. If you have an urgent need or an emergency during regular business hours, we can accommodate most schedules.

We provide drop-off services for established patients only, but you can always be seen as a "walk-in" whether you are a long-term client or new to us! These appointments are seen in between our regular appointments and will involve additional wait times and fees. We always do our best to make sure to meet the medical needs of all our patients.

Southwest Veterinary Medical Center is a full-service small animal and exotic pet hospital providing state-of-the-art medical care including:

- > Dental care
- > Surgical Services
- > In-house laboratory testing, as well as a full complement of tests to our outside laboratory partners
- > Digital radiology

We believe that the best medicine is preventive care, so we offer a full range of wellness services such as:

- > Annual exams
- > Vaccines tailored to each patient's needs and client concerns
- > Nutritional counseling for dogs and cats as well as exotic pets
- > Wellness blood testing and radiography

The Southwest Veterinary Medical Center provides excellent care for not only dogs and cats, but we also take great pride in working with many other species including:

- > Ferrets
- > Birds (psitticines, waterfowl, raptors and owls)
- > Reptiles - nonpoisonous snakes, lizards, turtles and tortoises
- > Rabbits, guinea pigs and chinchillas
- > Other small mammals such as hamsters, rats, hedgehogs and sugar gliders

A member of:

- The New Mexico Veterinary Medical Association
- Association of Reptile and Amphibian Veterinarians
- Association of Avian Veterinarians
- Association of Exotic Mammal Veterinarians
- American Veterinary Medical Association

DR. DANIEL LEVENSON is from southern New Mexico, graduating from Gadsden High School. He attended college in Boston and then Gainesville, Florida, where he received his bachelor's degree followed by his DVM from the University of Florida in 1993. He worked in northern and southern California before deciding to come home to New Mexico and has been in Albuquerque for over twelve years.

The Southwest Veterinary Medical Center was started in January of 2006. The hospital has grown steadily since then and now employs multiple licensed veterinary nurses. Together with an excellent client care staff they want to make sure your pets get the best care possible.

When not avidly following Gator football, Dr. Levenson loves to spend time caring for injured native wildlife or enjoying the great outdoors with his family and dogs.

DR. LAURA HEDEMANN is a native of Albuquerque and is excited to be back home! She received her biology degree from Trinity University in San Antonio, Texas, and attended Colorado State University Veterinary School.

Dr. Hedemann enjoys both internal medicine and surgery and emphasizes pain management and improving the quality of life of all her patients.

She also has a big interest in exotic species and looks forward to always learning more.
